UNAUDITED INTERIM FINANCIAL STATEMENTS

For the three and nine month periods ended September 30, 2012 and 2011

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying unaudited interim financial statements of Mistango River Resources Inc. are the responsibility of the management and Board of Directors of the Company.

The unaudited interim financial statements have been prepared by management, on behalf of the Board of Directors, in accordance with the accounting policies disclosed in the notes to the unaudited interim financial statements. Where necessary, management has made informed judgments and estimates in accounting for transactions which were not complete at the statement of financial position date. In the opinion of management, the interim financial statements have been prepared within acceptable limits of materiality and are in accordance with International Accounting Standard 34 Interim Financial Reporting of International Financial Reporting Standards using accounting policies consistent with International Financial Reporting Standards appropriate in the circumstances.

Management has established systems of internal control over the financial reporting process, which are designed to provide reasonable assurance that relevant and reliable financial information is produced.

The Board of Directors is responsible for reviewing and approving the unaudited interim financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the unaudited interim financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the unaudited interim financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

NOTES TO THE UNAUDITED INTERIM FINANCIAL STATEMENTS (CDN\$) FOR THE THREE AND NINE MONTH PERIODS ENDED SEPTEMBER 30, 2012 AND 2011

1. NATURE OF OPERATIONS AND GOING CONCERN CONSIDERATIONS

Mistango River Resources Inc. ("Mistango" or the "Company") is a federally incorporated company. The Company's head office is located at 4 Al Wende Ave., Kirkland Lake, ON, P2N 3J5. At a Special Meeting of shareholders held on March 17, 2011, the shareholders approved the consolidation of its Class A Voting Common Shares on the basis of one (1) new common share for four (4) old common shares (the "Consolidation") and change the Company's name from GLR Resources Inc. to Mistango River Resources Inc. Fractional shares remaining after giving effect to the Consolidation were cancelled such that shareholdings of each shareholder will be rounded down to the nearest whole number of post Consolidation common shares. On March 23, 2011, Articles of Amendment were filed to give effect to the disclosed changes. Mistango's principal business is the acquisition and exploration of mineral properties. Substantially all of the efforts of the Company are devoted to these business activities. To date, the Company has not earned significant revenue and is considered to be in the exploration stage. The ability of the Company to carry out its business plan rests with its ability to secure equity and other financing.

As at September 30, 2012, the Company had working capital of \$1,225,293 (December 31, 2011 - \$1,232,000), had not yet achieved profitable operations, had accumulated losses of \$24,193,543 (December 31, 2011 - \$22,002,095) and expects to incur further losses in the development of its business, all of which casts doubt upon the Company's ability to continue as a going concern. The Company is in the exploration stage and has no proven reserves or production relating to its operations. The application of the going concern assumption is dependent upon the Company's ability to generate future profitable operations and obtain necessary financing to do so.

Management believes the Company has sufficient funds or access to sufficient funds to cover planned operations throughout the next twelve month period. However, management plans on securing additional financing through the issue of new equity, among other things. Nevertheless, there is no assurance that these initiatives will be successful.

These financial statements have been prepared on the basis of accounting principles applicable to a "going concern", which assume that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations. The business of mining and exploring for minerals involves a high degree of risk and there is no guarantee that the Company's exploration programs will yield positive results or that the Company will be able to obtain the necessary financing to carry out the exploration and development of its mineral property interests.

Management believes the going concern assumption to be appropriate for these financial statements. If the going concern assumption was not appropriate, adjustments might be necessary to the carrying value of the assets and liabilities, reported revenues and expenses, and the statement of financial position classifications used in the financial statements.

The future profitability of exploration properties and the Company's continued existence are dependent upon the preservation of its interests in the underlying properties, the development of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise additional financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis.

Although the Company has taken steps to verify title to the properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, undetected defects, unregistered claims, native land claims, and non-compliance with regulatory and environmental requirements.

NOTES TO THE UNAUDITED INTERIM FINANCIAL STATEMENTS (CDN\$) FOR THE THREE AND NINE MONTH PERIODS ENDED SEPTEMBER 30, 2012 AND 2011

2. BASIS OF PRESENTATION

2.1 Statement of compliance

These unaudited interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standards ("IAS") 34 'Interim Financial Reporting' ("IAS 34") using accounting policies consistent with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

These unaudited interim financial statements were authorized by the Board of Directors of the Company on November 20, 2012.

2.2 Basis of presentation

These unaudited interim financial statements have been prepared on the basis of accounting policies and methods of computation consistent with those applied in the Company's December 31, 2011 annual financial statements. Management advises readers of these unaudited interim financial statements to review the audited financial statements and accompanying notes as at December 31, 2011 in conjunction with the review of these statements.

2.3 Adoption of new and revised standards and interpretations

The IASB issued a number of new and revised International Accounting Standards, IFRS, amendments and related interpretations which are effective for the Company's financial year beginning on or after January 1, 2012. For the purpose of preparing and presenting the financial information for the relevant periods, the Company has consistently adopted all these new standards for the relevant reporting periods.

At the date of authorization of these Financial Statements, the IASB and IFRIC has issued the following new and revised Standards and Interpretations which are not yet effective for the relevant reporting periods and which the Company has not early adopted these standards, amendments and interpretations. However, the Company is currently assessing what impact the application of these standards or amendments will have on the consolidated financial statements of the Company.

- IFRS 7 '*Financial Instruments, Disclosures*' - effective for annual periods beginning on or after January 1, 2013, IFRS 7 has been amended to provide more extensive quantitative disclosures for financial instruments that are offset in the statement of financial position or that are subject to enforceable master netting similar arrangements.
- IFRS 9 '*Financial Instruments: Classification and Measurement*' – effective for annual periods beginning on or after January 1, 2015, with early adoption permitted, introduces new requirements for the classification and measurement of financial instruments.
- IFRS 10 '*Consolidated Financial Statements*' – effective for annual periods beginning on or after January 1, 2013, with early adoption permitted, establishes principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities.
- IFRS 11 '*Joint Arrangements*' - effective for annual periods beginning on or after January 1, 2013, with early adoption permitted, provides for a more realistic reflection of joint arrangements by focusing on the rights and obligations of the arrangement, rather than its legal form.

2. BASIS OF PRESENTATION *(continued)*

2.3 Adoption of new and revised standards and interpretations *(continued)*

- IFRS 12 '*Disclosure of Interests in Other Entities*' - effective for annual periods beginning on or after January 1, 2013, with early adoption permitted, requires the disclosure of information that enables users of financial statements to evaluate the nature of, and risks associated with its interests in other entities and the effects of those interests on its financial position, financial performance and cash flows.
- IFRS 13 '*Fair Value Measurement*' - effective for annual periods beginning on or after January 1, 2013, with early adoption permitted, provides the guidance on the measurement of fair value and related disclosures through a fair value hierarchy.
- IAS 1 '*Presentation of Financial Statements*' - the IASB amended IAS 1 with a new requirement for entities to group items presented in other comprehensive income on the basis of whether they are potentially reclassifiable to profit or loss.
- IAS 12 '*Income Taxes*' – In December 2010, effective for annual periods beginning on or after January 1, 2012, IAS 12 Income Taxes was amended to introduce an exception to the existing principle for the measurement of deferred tax assets or liabilities arising on investment property measured at fair value. As a result of the amendments, SIC 21, *Income Taxes – recovery of revalued non-depreciable assets*, will no longer apply to investment properties carried at fair value. The amendments also incorporate into IAS 12 the remaining guidance previously contained in SIC 21, which is withdrawn.
- IAS 19 '*Employee Benefits*' - effective for annual periods beginning on or after January 1, 2013, a number of amendments have been made to IAS 19, which included eliminating the use of the “corridor” approach and requiring remeasurements to be presented in OCI. The standard also includes amendments related to termination benefits as well as enhanced disclosures.
- IAS 27 '*Separate Financial Statements*' - effective for annual periods beginning on or after January 1, 2013, as a result of the issue of the new consolidation suite of standards, IAS 27 Separate Financial Statements has been reissued, as the consolidation guidance will now be included in IFRS 10. IAS 27 will now only prescribe the accounting and disclosure requirements for investments in subsidiaries, joint ventures and associates when an entity prepares separate financial statements.
- IAS 28 '*Investments in Associates and Joint Ventures*' - effective for annual periods beginning on or after January 1, 2013, as a consequence of the issue of IFRS 10, IFRS 11 and IFRS 12, IAS 28 has been amended and will provide the accounting guidance for investments in associates and to set out the requirements for the application of the equity method when accounting for investments in associates and joint ventures. The amended IAS 28 will be applied by all entities that are investors with joint control of, or significant influence over, an investee
- IAS 32 '*Financial Instruments, Presentation*' – In December 2011, effective for annual periods beginning on or after January 1, 2013, IAS 32 was amended to clarify the requirements for offsetting financial assets and liabilities. The amendments clarify that the right of offset must be available on the current date and cannot be contingent on a future date.

NOTES TO THE UNAUDITED INTERIM FINANCIAL STATEMENTS (CDN\$) FOR THE THREE AND NINE MONTH PERIODS ENDED SEPTEMBER 30, 2012 AND 2011

3. CAPITAL MANAGEMENT

The Company's objectives in managing its capital are: to maintain adequate levels of funding to support its expenditures arising from the Company's investments; to safeguard the Company's ability to continue as a going concern in order to pursue the exploration of its properties; to maintain a flexible capital structure for its projects for the benefit of its stakeholders; to maintain corporate and administrative functions necessary to support the Company's operations and corporate functions; and to seek out and acquire new projects of merit.

The Company considers its capital to be equity, which is comprised of share capital, reserve accounts, accumulated deficit and accumulated other comprehensive income, which as at September 30, 2012 totaled \$1,463,230 (December 31, 2011 - \$1,417,760).

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The board of directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The properties in which the Company currently has an interest are in the exploration stage; as such, the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for administrative costs, the Company will continue to assess its existing working capital and raise additional amounts as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

The Company's investment policy is to invest its cash in low-risk, highly liquid, short-term interest-bearing investments, selected with regards to the expected timing of upcoming expenditures.

The Company expects its capital resources will be sufficient to carry out its exploration plans and operations through its current operating period. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the nine month period ended September 30, 2012. The Company is not subject to externally imposed capital requirements.

4. FINANCIAL INSTRUMENTS

Fair value

The Company's financial instruments as at September 30, 2012 include cash and cash equivalents, trade and other receivables, investments, trade and other payables, and long-term debt. The Company has designated its cash and cash equivalents as FVTPL, which are measured at fair value cash and cash equivalents and is determined based on transaction value and is categorized as Level 1 measurement. The Company has designated its investments as available-for-sale, which are measured at fair value and is determined based on transaction value and is categorized as Level 1 measurement. Fair value of trade and other receivable and trade and other payables, promissory notes payable and long-term debt are determined from transaction values which were derived from observable market inputs. Fair values of these financial instruments are based on Level 2 measurements. The Company records its financial instruments at their carrying amounts which approximates fair value, unless otherwise disclosed in the financial statements. The carrying amounts approximate fair values due to the short-term maturities of these financial instruments.

NOTES TO THE UNAUDITED INTERIM FINANCIAL STATEMENTS (CDN\$) FOR THE THREE AND NINE MONTH PERIODS ENDED SEPTEMBER 30, 2012 AND 2011

4. FINANCIAL INSTRUMENTS *(continued)*

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Interest-rate risk

The Company has cash and cash equivalents balances bearing fixed interest rates and no interest bearing debt. The Company's current policy is to invest excess cash in investment-grade short term deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counter party to a financial instrument fails to meet its contractual obligations.

The Company's credit risk is primarily attributable to cash and cash equivalents and receivables included in current assets. The Company has no material concentration of credit risk arising from operations. Cash and cash equivalents consist of bank deposits and short-term guaranteed investment certificates, which have been invested in a Canadian chartered bank, from which management believes the risk of loss is remote. As at September 30, 2012, the Company's receivables primarily consist of amounts due from the Canadian government. The Company's receivables are normally collected within a 60-90 day period. The Company has not experienced any significant collection issues to September 30, 2012. The Company is exposed to credit risk with regards to debtors refusing payment and the government denying the Company claims filed.

The Company's maximum exposure to credit risk as at September 30, 2012 is the carrying value of cash and cash equivalents and trade and other receivables.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at September 30, 2012, the Company had current assets of \$1,836,004 (December 31, 2011 - \$1,683,466) to settle current liabilities of \$610,711 (December 31, 2011 - \$451,466). The ability of the Company to continue to pursue its exploration activities and continue as a going concern is dependent on its ability to secure additional equity or other financing. All of the Company's financial liabilities (other than long-term debt) have contractual maturities of less than 30 days and are subject to normal trade terms. As at September 30, 2012, the Company had working capital of \$1,225,293 (December 31, 2011 - \$1,232,000).

Price risk

The Company holds common shares of TSX and TSXV-traded companies. The Company has classified some of these investments as FVTPL and others as available-for-sale and such common shares are subject to stock market volatility. The value of this financial instrument fluctuates on a daily basis due to external market factors that are not within the control of the Company. The Company monitors the trading value of these common shares in order to ensure that, if in the best interest of the Company, sale of the shares is made under favourable conditions

Sensitivity analysis

Based on management's knowledge and experience of the financial markets, the Company believes the following movements are "reasonably possible" over a one year period:

- i. The Company's marketable securities and investments are subject to fair value fluctuations. As at September 30, 2012, if the fair value of the marketable securities and investments had decreased/increased by 10% with all other variables held constant, net comprehensive income (loss) for the nine month period ended September 30, 2012 would have been approximately \$12,000 (2011 - \$366,000) higher/lower.

5. CASH AND CASH EQUIVALENTS

The cash and cash equivalents balance at September 30, 2012, contains cash on deposit with major Canadian banks of \$1,242,023 (December 31, 2011 - \$1,036,190) and \$500,000 (December 31, 2011 - \$Nil) in short-term guaranteed investment certificates with maturities of less than 90 days.

6. MARKETABLE SECURITIES

Marketable securities as at September 30, 2012, are comprised of Nil (December 31, 2011 - 500,000) common shares of Brigus Gold Corp. ("Brigus"), a publicly traded Canadian company traded on the Toronto stock exchange ("TSX"). As at September 30, 2012, these FVTPL investments have been measured at their fair value of \$Nil (December 31, 2011 - \$490,000), as determined by the closing bid price of the securities on the TSX on September 30, 2012 (December 31, 2011). The revaluation to market value resulted in an unrealized gain on marketable securities during the nine month periods ended September 30, 2012 of \$385,000 (2011 - loss of \$240,000). During the nine month period ended September 30, 2012, the Company sold 500,000 (2011 - 896,134) of these shares for net proceeds of \$506,774 (2011 - \$1,396,312). The Company recorded a realized loss during the nine month period ended September 30, 2012 of \$368,226 (2011 - \$171,923) on the sale of these marketable securities.

7. TRADE AND OTHER RECEIVABLES

The Company's trade and other receivables arise from three main sources: sales and harmonized sales tax ("HST") receivable due from government taxation authorities, receivables from related parties and prepaid expenses. These are broken down as follows:

As at,	September 30, 2012	December 31, 2011
	\$	\$
HST receivable	93,981	157,276
Total trade and other receivables	\$ 93,981	\$ 157,276

At September 30, 2012, the Company anticipates full recovery of these amounts and therefore no impairment has been recorded against these receivables. The credit risk on the receivables has been further discussed in Note 4.

The Company holds no collateral for any receivable amounts outstanding as at September 30, 2012.

8. INVESTMENTS

Investments include 835,121 shares of RJK Explorations Inc. ("RJK") and 136 shares of Strategic Resources Inc. ("SRI"), publicly-traded Canadian companies listed on the TSX-V. As at September 30, 2012, these available-for-sale investments have been measured at their fair value, as determined by the closing bid price of the securities on September 30, 2012 of \$121,111 (December 31, 2011 - \$70,993). The impact to the financial statements of this revaluation to market value resulted in an increase of \$50,118 (2011 - decrease of \$29,230) to the value of the investments with a corresponding increase in accumulated other comprehensive income of \$43,918 (2011 - decrease of \$39,517) offset by future income tax recovery of \$6,200 (2011 - \$10,287) that has been included in the current period's net loss income.

Pursuant to a re-instated option agreement in respect of its Boudreault property, the Company made a \$10,000 payment in 2010. In order to exercise its right to acquire the Boudreault property under the re-instated option, Mistango made a cash payment of \$15,000 and issued 25,000 shares in the capital of the Company on December 1, 2010.

On June 14, 2011, the Company entered into a property option agreement to acquire a 100% interest in six claims in close proximity to the Company's Omega property in Larder Lake, Ontario. To acquire a 100% interest the Company will pay cash of \$150,000 as follows: \$25,000 on signing (paid), \$25,000 on or before June 30, 2012 (paid), \$50,000 on or before June 30, 2013, and \$50,000 on or before June 30, 2014 and issue 300,000 common shares as follows: 50,000 on signing (issued with a fair value of \$8,000), 50,000 on or before June 30, 2012 (issued with a fair value of \$10,000), 100,000 on or before June 30, 2013, and 100,000 on or before September 30, 2014. In addition, the Company is required to carry out \$500,000 in work expenditures on these claims by June 30. The vendor will retain a 3% NSR.

17. COMMITMENTS AND CONTRACTUAL OBLIGATIONS

The Company's activities are subject to environmental regulation (including regular environmental impact assessments and permitting) in each of the jurisdictions in which its mineral properties are located. Such regulations cover a wide variety of matters including, without limitation, prevention of waste, pollution and protection of the environment, labour relations and worker safety. The Company may also be subject under such regulations to clean-up costs and liability for toxic or hazardous substances which may exist on or under any of its properties or which may be produced as a result of its operations. It is likely that environmental legislation and permitting will evolve in a manner which will require stricter standards and enforcement. This may include increased fines and penalties for non-compliance, more stringent environmental assessments of proposed projects and a higher degree of responsibility for companies, their directors and employees. The Company has not determined and is not aware whether any provision for such costs is required and is unable to determine the impact on its financial position, if any, of environmental laws and regulations that may be enacted in the future due to the uncertainty surrounding the form that these laws and regulations may take.
